Avis BT_BACSpec Listeria_2017-01-26_V

Subject: NF VALIDATION mark

Eurofins GeneScan
Mr Christoph BAHRDT
Engesserstrasse 4
DE 79108 FREIBURG IM BREISGAU
GERMANY

La Plaine Saint-Denis, January 26th, 2017

Dear Sir,

Following the positive agreement expressed on January 26th, 2017, by the Technical Board "Agribusiness microbiology" of the NF VALIDATION mark (NF102), I beg to inform you that the **NF VALIDATION certification has been granted** to Eurofins GeneScan Company for the following analysis method:

BACSpec™ Listeria

Certificate reference No. EGS 38/04-01/17, with end of validity 26th-January-2021

The alternative method has been validated for the detection of *Listeria* spp. in all human food products and production environmental samples, by performing validation assays on a broad range of foods, by comparison to the reference method NF EN ISO 11290-1 (1997) and its amendment A1 (2005) and following the validation protocol NF EN ISO 16140-2 (2016).

A further letter will mention full conclusions and possible reservations made by the Technical Board. If reservations are mentioned, I ask you to take them into account without any delay.

Yours Sincerely,

Managing Director
Franck LEBEUGLE
